at your doorstep

WHO WE ARE

Fluiconnecto is a leading international service organization, focused on fluid conveyance systems and solutions. Fluiconnecto prides itself on providing products and application knowledge, as well as maintenance services, from OEM to end-users in all market segments, through a global network tailored to local conditions. Fluiconnecto's services are made available at the customer's doorstep in 6 continents, through a network of OEM Assembly Plants, Hydrosops, On-Site Workshops, and Service On-Site (SOS) Vans.

MANULI RYCO

Manuli Ryco was established in 1935 with strong roots on two continents, tracing its origins to both Italy and Australia. It is committed to deliver sustainable value to all stakeholders through excellence in innovation, quality, and service.

MANULI RYCO

Manufacturing Division

- ✓ Innovation & Testing
- ✓ Integrated Design of Hose & Connectors
- ✓ State-of-the-Art Manufacturing
- ✓ Global Manufacturing Footprint
- ✓ Broadest Range in the Industry

Service Division

- ✓ Co-Design with Customers
- ✓ 24/7 Service
- ✓ Maintenance Services
- ✓ Technical Support
- ✓ Dedicated Offering for Global OEMs

WE KEEP IT RUNNING

WE ARE YOUR STRATEGIC PARTNER FOR ALL APPLICATIONS AND MARKETS!

Our solutions are designed to be suitable for each specific application, involving construction machines, mining, industrial processes, agriculture, road construction equipment, drilling, forestry machines, material handling and lifting, road transportation, marine and offshore, among others.

MATERIAL HANDLING & LOGISTICS

WHY FLUICONNECTO?

5 good reasons for choosing Fluiconnecto as your trusted partner:

IMPROVE PERFORMANCE

SAVE MONEY

REDUCE DOWNTIME

INCREASE SAFETY

IMPROVE SUSTAINABILITY

INTEGRATED SYSTEMS

OVER 80 YEARS OF EXPERIENCE

in the design and manufacturing of high pressure hydraulic connections.

Achieve longer service life with Manuli and Ryco's Integrated Systems

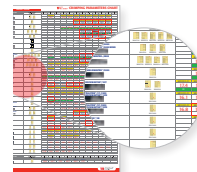

- Designed and manufactured in-house
- Complete product range built to fit together
- Assembly equipment from the same manufacturer
- Crimping parameters constantly monitored and updated
- Meet and exceed international requirements

Two Piece Couplings

One Piece Couplings

INSERTS

- High quality carbon and stainless steel
- Micro and macro grooves
- Unique sealing groove
- Swivel Rotofit fittings
- High pressure non skive fittings

FERRULES

- Solid piece design
- Ferrule grooves are specifically drawn to match the corresponding insert grooves
- Verified compression during crimping
- Standard and skived solution for high pressure

HYDRAULIC HOSES

- Wide range for all applications
- Standard or skived solution
- Low to ultra high pressures
- Manufactured in own facilities
- Tested to meet major international specifications

CRIMPING PARAMETERS

- Precisely selected crimping diameters
- Based on: steel hardness, ferrule compression, hose reinforcement type, hose wall thickness, dies profile in the crimping machines

ASSEMBLY EQUIPMENT

- Specialized product lines for OEM, workshop, mobile vans
- Dies profiled specifically for Manuli and Ryco ferrules
- Precise calibration
- Crimping repeatability
- Manual and automatic operation

DESIGNED WITH INCREASED PERFORMANCE AND SAFETY

All elements of Manuli and Ryco's Integrated Systems work together to exceed the international requirements, offering a more robust and durable assembly.

WE HAVE YOU COVERED

HOSES

- Hydraulics
- Industrial Material Conveyance
- Pneumatics
- Water Cleaning

CONNECTORS

- Hydraulic Adaptors
- One-Piece Fittings
- Two-Piece Fittings
- Quick Release Couplings

ACCESSORIES & SOLUTIONS

- Seals
- Valves, Pumps & Motors
- Fuel Systems
- Assembly Equipment
- Automatic Lubrication Systems
- Spill Control Products
- Oils & Lubrication
- Asset Security Devices
- Hose Protection

NATIONWIDE 24/7 ON-SITE SERVICE

BOOK YOUR SOS REPAIRS TODAY

With our innovative **Field Management Tool**, you can request emergency breakdown assistance, or schedule work for a later date. Receive email notifications of when our certified engineer will arrive on-site right through to when the job is completed. That's not all, detailed electronic job sheets are sent to our customers upon job completion including description of the fault, plus before and after supporting photographs.

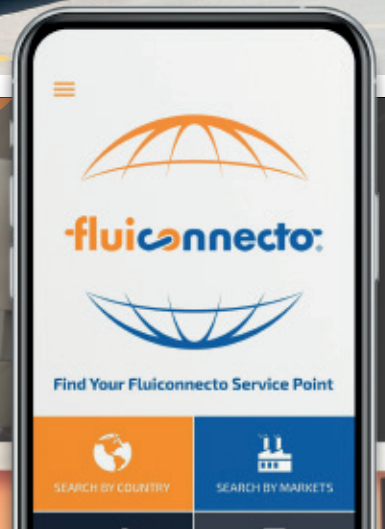

BENEFITS OF OUR ON-SITE MOBILE SERVICES:

- Reliable Service
- Fully Stocked Vans
- 99% First Time Repairs
- Qualified & Certified Technicians
- Hose Tagging Traceability
- One National Rate
- Real Time Updates
- Supporting Pictures
- Accurate ETAs
- Online Job Manager Portal
- 92% Attendance Rate (within the hour)
- One Point of Contact
